1-Drum Modular Spill Pallet

This 1-drum modular spill pallet is a low-profile polyethylene deck that holds one 55-gallon drum over a 12-gallon containment sump. If a drum leaks, drips during dispensing or gets punctured, the liquid drops through the grating and stays in the sump instead of spreading across the floor or into a drain.

GOOD FOR

- Oil, lubricant and hydraulic fluid drums in maintenance shops
- Chemical and solvent drums in warehouses and plants
- Waste oil and used-fluid collection areas
- Fleet garages, manufacturing lines and loading docks
