PRODUCT SPEC SHEET
Item C1615E

# 1-Drum Spill Tray with Grate, Yellow, 31in Dia., 10-Gal Sump

This single-drum spill tray is a round, low-cost way to contain a single 55-gallon drum, with a removable grate that holds the drum up out of collected liquid. It catches leaks, drips and small spills before they reach the floor, holding up to 10 gallons.

It is molded from high-visibility yellow polyethylene that resists oils, solvents and most chemicals, and it is light enough for one person to move. Pair it with a drum dolly to make it mobile.

## GOOD FOR

- A single 55-gallon drum on a dispensing or work station
- Catching leaks and drips under drums in shops and warehouses
- Maintenance areas and loading docks
