PRODUCT SPEC SHEET
Item C1611STE

1-Drum Steel Spill Pallet, Blue Powder, No Drain Plug

This 1-drum steel spill pallet is built entirely of steel to hold one 55-gallon drum. Choose steel over polyethylene where heat, sparks, open flames or flammable liquids are a concern, or wherever a pallet needs to take hard knocks.

The blue powder-coated finish protects the steel sump from corrosion, and the galvanized grating keeps drums up out of anything that collects below. Forklift access lets you reposition a loaded pallet.

GOOD FOR

- Oil, lubricant and hydraulic fluid drums in maintenance shops
- Chemical and solvent drums in warehouses and plants
- Waste oil and used-fluid collection areas
- Fleet garages, manufacturing lines and loading docks

SPECIFICATIONS

Holds	one 55-gallon drum
Drain plug	No
Forklift pockets	Yes
Material	Steel, blue powder-coated
Item number (SKU)	C1611STE

Specifications are typical values and may change without notice. Safety Data Sheets (SDS) and other documents are available on request.
