Bulkhead Fittings (2) for Modular Spill Pallets

A set of two 1.25-inch bulkhead fittings for connecting modular IBC spill pallets and expansion tanks.

The fittings thread into holes in the module walls and create a sealed passage between neighboring units, so a spill on one pallet can flow into the shared containment volume. Use them with the assembly kit (C1118U) when you add pallets or expansion tanks to a modular system.

SPECIFICATIONS

Size (W x D x H)	3 x 3 x 3 in.
Weight	3 lbs (set of 2)
Item number (SKU)	C1117U

Specifications are typical values and may change without notice. Safety Data Sheets (SDS) and other documents are available on request.
