PRODUCT SPEC SHEET
Item C8476U

Foam Wall Containment Berm, 12' x 20' x 4", PVC, 598 Gal.

The Foam Wall Containment Berm (12 ft x 20 ft outside, 4 in. walls) holds up to 598 gallons of spilled liquid for secondary containment and is made of 22 oz, 24 mil PVC.

These berms have closed-cell foam walls that spring up on their own when you unroll the berm and flatten under tires, so vehicles, carts and forklifts can drive straight in and out with no ramps. Set one under generators, compressors, trucks or drum groups to catch leaks and spills.

GOOD FOR

- Fuel trucks, tankers and mobile refueling
- Generators, compressors and heavy equipment
- Drum and tote staging areas
- Vehicle maintenance and wash bays
- Frac sites, job sites and emergency spill response
