IBC Outdoor Modular Spill Pallet, 2-Tote Model, Polyethylene

This 2-tote outdoor modular IBC spill pallet is a connected containment system for two IBC totes. It ships as 2 pallets, 2 expansion tanks and a weather cover, and the modules join with bulkhead fittings so all of them share one 280-gallon containment volume.

The weather cover keeps rain, snow and UV off the totes and out of the sump, so the full containment volume is ready for a real spill. The system is designed to grow: add pallets and expansion tanks later as your tote count rises.

GOOD FOR

- IBC totes stored outdoors, away from the main building
- Farms, yards and remote sites with no indoor space
- Keeping rainwater out of the sump so capacity stays available
- Securing totes against tampering

SPECIFICATIONS

Holds	two IBC totes
Size (W x D x H)	126 x 93 x 79 in.
Capacity	280 gallons
Weight	1,258 lb
Drain plug	No
Forklift pockets	Yes
Item number (SKU)	C1165U

Specifications are typical values and may change without notice. Safety Data Sheets (SDS) and other documents are available on request.
