# IBC Outdoor Modular Spill Pallet, 5-Tote Model, Polyethylene

This 5-tote outdoor modular IBC spill pallet is a connected containment system for five IBC totes. It ships as 5 pallets and a weather cover, and the modules join with bulkhead fittings so all of them share one 375-gallon containment volume.

The weather cover keeps rain, snow and UV off the totes and out of the sump, so the full containment volume is ready for a real spill. The system is designed to grow: add pallets and expansion tanks later as your tote count rises.

## GOOD FOR

- IBC totes stored outdoors, away from the main building
- Farms, yards and remote sites with no indoor space
- Keeping rainwater out of the sump so capacity stays available
- Securing totes against tampering

## SPECIFICATIONS

| | |
|---|---|
| **Holds** | five IBC totes |
| **Size (W x D x H)** | 312 x 62 x 79 in. |
| **Capacity** | 375 gallons |
| **Weight** | 2,248 lb |
