IBC Outdoors Spill Pallet, 1-Tote Enclosed Polyethylene Platform w/Drain Plug

This enclosed outdoor 1-tote IBC spill pallet is a fully enclosed storage unit for one IBC tote (up to 52 x 52 x 61 in.) with a 365-gallon containment sump built in. It protects totes from rain, snow, sun and tampering while catching any leak underneath.

Keeping rain out of the sump matters: an uncovered pallet fills with water and loses the capacity you need for a real spill. The roll-top lid and swing-out doors give full access for loading by forklift and for dispensing. The doors lock to keep stored chemicals secure.

GOOD FOR

- IBC totes stored outdoors, away from the main building
- Farms, yards and remote sites with no indoor space
- Keeping rainwater out of the sump so capacity stays available
- Securing totes against tampering

SPECIFICATIONS

Holds	one IBC tote
Size (W x D x H)	62 x 64.5 x 96 in.
Fits totes up to	52 x 52 x 61 in
Sump capacity	365 gallons
Load capacity	8,500 lb
Weight	525 lb
Drain plug	Yes
Forklift pockets	Yes
Item number (SKU)	C1161U

Specifications are typical values and may change without notice. Safety Data Sheets (SDS) and other documents are available on request.
