IBC Spill Pallet, 1 Unit Poly Platform 62x62x28 inches Yes Forklift Pockets Yes Drain

This IBC tote spill pallet holds one IBC tote over a 360-gallon containment sump. Set a 275- or 330-gallon intermediate bulk container on the deck and any leak from the valve, a cracked bottle or a dispensing mistake is caught underneath.

It is built from polyethylene, which will not rust and resists oils, acids, caustics and most chemicals. The deck supports 8,500 lb so a full tote sits securely.

GOOD FOR

- 275- and 330-gallon IBC totes of chemicals, oils or coolants
- Tote dispensing stations in plants and warehouses
- Agricultural chemical and fertilizer storage
- Water treatment and cleaning chemical storage
