Tow Bridle with Bullet Float for Spill Containment Boom

The Tow Bridle with Bullet Float for Spill Containment Boom is a boom tow bridle with an orange bullet float built in: the tow bar slides onto the boom's end connector and locks with a toggle pin, the wire rope bridle runs to a single tow eye, and the float keeps the assembly at the surface.

GOOD FOR

- Towing boom in chop, current or open water
- Longer tows from the staging area to the spill
- Crews handling bridles from a boat deck
- Two-boat sweeps and U-shaped collection ahead of a skimmer

SPECIFICATIONS

Design	Slide-on tow bar, two-leg wire rope bridle and tow eye, with a bullet float
Float	Keeps the bridle at the surface if dropped; adds buoyancy at the boom end while towing
Color	Orange float
Fits	Containment booms with ASTM universal slide end connectors
Connection	Slides onto the boom end connector; locks with a toggle pin
Tow point	Eye at the front of the bridle for your tow line
Item number (SKU)	C0540030A

Specifications are typical values and may change without notice. Safety Data Sheets (SDS) and other documents are available on request.
