Universal Absorbent Socks, 3"x4', Pallet of 16 Cases (480 Socks)

Universal Absorbent Socks absorb oils, coolants, solvents and water, with up to 25 gallons of absorbency per case.

These socks soak up oil, water, coolants, solvents and other non-aggressive liquids. One stock covers most everyday leaks, whatever the fluid. Bend them around machine bases, drip points, doorways and floor drains to stop a spill from spreading, then let them absorb it. Lay them end to end for longer barriers.

GOOD FOR

- Everyday leaks of oil, coolant, solvents and water
- Maintenance shops and production floors
- Facilities that want one absorbent for most fluids
