Oil-Only Absorbent Socks, 3"x12', Pallet of 16 Cases (160 Socks)

Oil-Only Absorbent Socks absorb oil and fuels only (repels water), with up to 25 gallons of absorbency per case.

These socks soak up oil, gasoline, diesel, hydraulic fluid and other petroleum-based liquids. They repel water, so they keep working outdoors, on wet floors and even floating on water. Bend them around machine bases, drip points, doorways and floor drains to stop a spill from spreading, then let them absorb it. Lay them end to end for longer barriers.

GOOD FOR

- Oil and fuel leaks in shops, garages and plants
- Spills outdoors or on wet floors (it repels water)
- Marinas, boat docks and spills on water
- Under machines, presses and hydraulic equipment

SPECIFICATIONS
