PRODUCT SPEC SHEET
Item C9706-OSU

Pipe Sock for Oil & Sediment, 12" Diameter x 60"

This pipe sock slides inside a 12-inch drain pipe and filters runoff as it flows through. The oil-absorbing filter media grabs oil, grease and sediment while clean water passes, so petroleum never reaches the storm system. It needs no power and no upkeep: just push it into the pipe opening.

GOOD FOR

- Parking lot and fueling area drain pipes
- Vehicle maintenance yards
- Industrial sites with NPDES stormwater permits
