Universal Absorbent Pads, Contractor Grade, Heavy Weight, 15"x18", Pallet of 42 Cases (4,200 Pads)

Universal Absorbent Pads absorb oils, coolants, solvents and water, with up to 22 gallons of absorbency per case.

These pads soak up oil, coolant, antifreeze, solvents, water and other water-based fluids. Because they soak up almost any non-aggressive liquid, one stock of these covers most everyday leaks in a shop. Lay them under leaking equipment, on workbenches or across a fresh spill.

GOOD FOR

- Everyday leaks of oil, coolant, solvents and water
- Maintenance shops and production floors
- Facilities that want one absorbent for most fluids
