Flexible Secondary Containment Tank, 1,150 Gal., 162x78x24 In., No Drain

The Flexible Secondary Containment Tank is secondary containment for tanks and equipment with 1,150 gallons of containment capacity.

A portable 1,150-gallon containment tank for drums, tanks, transformers and equipment, for a temporary job site or a permanent spot. The included L-brackets hold the flexible walls up with no tools, and it folds flat for storage when you are done.

GOOD FOR

- Drums, tanks and transformers on job sites
- Temporary or seasonal containment
- Spill response staging
