Garage Floor Mat - 9' Widths

The 9-foot garage floor mat comes in two sections. A 3-foot section and a 6-foot section. This makes handling the mat easier and shipping less costly. This is the ideal size for larger vehicles such as trucks and SUVs.

Although the mat can be placed side by side, based on feedback over the years we suggest overlapping the 6 foot section of matting approximately 3 inches over the edge of the 3 foot section. This helps keep everything in place. We do not recommend using tape on the backing of the matting because it can damage it.
