Hazmat Absorbent Pads, Bonded, Light Weight, 15"x19", 200/Case

Hazmat Absorbent Pads absorb acids, caustics, solvents and other chemicals, with up to 31.1 gallons of absorbency per case.

These pads soak up acids, caustics, solvents and other aggressive chemicals, as well as oils and water. The yellow color marks them as chemical-spill absorbents, so crews grab the right material fast. Lay them under leaking equipment, on workbenches or across a fresh spill.

GOOD FOR

- Acids, caustics and aggressive chemical spills
- Labs, battery rooms and chemical storage areas
- Hazmat response kits
