Hazmat Absorbent Pillows, 8"x18", 20/Case

Hazmat Absorbent Pillows absorb acids, caustics, solvents and other chemicals, with up to 26.8 gallons of absorbency per case.

These pillows soak up acids, bases, caustics, solvents and other aggressive chemicals. The bright yellow color marks them as chemical absorbents, so crews grab the right material fast. Tuck them under drips, into drip pans and sumps, inside cabinets, or anywhere pads and rolls can't reach. The outer skin holds absorbed liquid so pillows don't drip when you pick them up.

GOOD FOR

- Acids, caustics and aggressive chemical spills
- Labs, battery rooms and chemical storage areas
- Hazmat response kits
