Hazmat Absorbent Socks, 3"x4', 10/Case

Hazmat Absorbent Socks absorb acids, caustics, solvents and other chemicals, with up to 8.8 gallons of absorbency per case.

These socks soak up acids, bases, caustics, solvents and other aggressive chemicals. The bright yellow color marks them as chemical absorbents, so crews grab the right material fast. Bend them around machine bases, drip points, doorways and floor drains to stop a spill from spreading, then let them absorb it. Lay them end to end for longer barriers.

GOOD FOR

- Acids, caustics and aggressive chemical spills
- Labs, battery rooms and chemical storage areas
- Hazmat response kits
