Heavy-Duty Spill Containment Boom 20" Height - 100ft. Length

The Heavy-Duty Spill Containment Boom 20" Height is a non-absorbent floating boom that holds oil and debris on the water's surface: 20 inches total height, 7" / 0.18m freeboard, 12" / 0.30m draft, 100 feet sections.

When you are in the need of Oil Spill Equipment consider the Heavy-Duty Boom . This boom has a top tension cable fitted for fast currents and long term deployments. It also has a bottom galvanized steel chain that adds weight and rigidity.

GOOD FOR

- Harbors, marinas and rivers
- Containing oil and floating debris on water
- Spill response contractors and industrial sites near water
