# Oil Spill Pads Kit

You are out on the water with your boat and you have an oil leak or a fuel spill. Luckily you have some oil absorbent pads on board but then you realize you have no gloves to handle the soiled pads or disposal bags. This is exactly why we include nitrile gloves and disposal bags with our cleanup pads. When you need to use them you need gloves to handle them and a container to hold them in until you get back to shore.

## SPECIFICATIONS
