Spill Pallet Only (for Modular Spill Pallets)

A single modular IBC spill pallet: one 62 x 62 in. polyethylene deck with a 75-gallon sump that holds one IBC tote.

Use it to replace a damaged module or to grow a modular IBC system one tote at a time. It connects to neighboring pallets and expansion tanks with bulkhead fittings (C1117U) and the assembly kit (C1118U), so spills from any tote flow into one shared containment volume. Built-in fork pockets let you set it in place with a forklift.

SPECIFICATIONS

Size (W x D x H)	62 x 62 x 8.75 in.
Sump capacity	75 gallons
Load capacity	9,000 lb
Weight	125 lb
Forklift pockets	Yes
Item number (SKU)	C9630U

Specifications are typical values and may change without notice. Safety Data Sheets (SDS) and other documents are available on request.
