Universal Absorbent Pads, Contractor Grade, Light Weight, 15"x18", 200/Case

Universal Absorbent Pads absorb oils, coolants, solvents and water, with up to 35 gallons of absorbency per case.

These pads soak up oil, coolant, antifreeze, solvents, water and other water-based fluids. Because they soak up almost any non-aggressive liquid, one stock of these covers most everyday leaks in a shop. Lay them under leaking equipment, on workbenches or across a fresh spill.

GOOD FOR

- Everyday leaks of oil, coolant, solvents and water
- Maintenance shops and production floors
- Facilities that want one absorbent for most fluids
